BlindSpot products are made by hand in Marin County California by sculptor Deborah Childress and her assistant Elida Lopez.

Each piece is cast individually from fiber reinforced architectural gypsum cement. They are painted with several layers of natural shellac colored with earth pigments and mica powders, then patinaed with wax based colors. The colors are blended by hand therefore some variations may occur. Boxes are made of bamboo and are imported.

Please email or, better yet, call Deborah to inquire about larger size mirrors or quantity orders.

All items may be ordered in any color shown in this guide.
